# BOTS USED

- 1 Blender bot - general conversation
- 2 Jarvis Bot - This bot generally sorts and tells which bot to answer on the type of query the user sends.
- 3 Movie recommendation bot - Recommends movies when activated.
- 4 Story bot - When the mood of the user is neutral, the bot initiates the conversation with a story.

# WEB SCRAPING

## BACKEND

Flask is a light-weight micro web framework written in Python.

The working directory looks like this.

# THANK YOU!

May we all live long enough or be reincarnated,  
to see all the cool tech in the future.
